

BORA

Revit Technician

Bora Architecture & Interiors is seeking an energetic, self-motivated individual who shares our values of positive social impact, sustainable innovation and forward-thinking design to join our growing practice in Portland.

The ideal candidate will bring a comprehensive knowledge in 3D modeling and Autodesk Revit software with an interest in developing creative assets, maintaining standards, and assisting project teams. We are looking for someone with enthusiasm for integrated design and technical modeling, an ambition to learn, and a commitment to actively contribute to our creative and equitable firm culture.

Qualifications

- A minimum AA or Autodesk Revit Certification with 2+ years of professional experience in an AEC firm
- Understands BIM Collaborate Pro
- Can create complex 3D families; strong modeling skills
- Experience with software used for sustainability analysis, clash detection, point cloud integration, etc. in Revit
- Ability to juggle multiple projects and prioritize workflow with the help of senior team members
- Effective communication skills and willingness to train and support staff knowledge growth
- Exceptional initiative and follow-through skills
- Commitment to continuous learning

Roles and Responsibilities

Revit Template Support (40%):

- Assist and support development/training of Bora BIM best practices
- Regularly communicate and encourage new Revit tools and standards to staff and project teams to educate and promote design culture
- Working closely with Quality Control Manager, support firmwide productivity by advancing Bora's Revit Template and Detail Library

Revit Project Support (40%):

- Assist with project start-up in Revit and documentation framework
- Engage with project teams to improve workflows, provide content and training, and identify opportunities to improve the design process office-wide

- Serve as a firm resource for both immediate issues and longer-term scheduled work. Develop project-specific elements ranging from kit of parts to single, multi-faced families to accelerate design investigations and expedite repetitive tasks.
- Reinforce the QA/QC process by distributing real-time updates to project teams and models.
- Monitor and maintain model health and performance

Design Technology (20%):

- Support the adoption of new technology, both through independent research around Revit-focused tools and add-ins, as well as through working with Design Technology staff to leverage new tools
- Research emerging trends and technologies in BIM
- Identify opportunities for improvement to Bora's internal process, application and integration of Revit into our project work

Compensation and Benefits

We care about the wellness of your whole person, both within and outside of work. As such, Bora is proud to support its employees with a robust benefits package which includes:

- Competitive pay commensurate with experience
- Comprehensive medical, dental and vision insurance
- Flexible Spending Account (FSA)
- Paid Family Leave
- Traditional and Roth 401(k)
- Pre-tax TriMet Hop Fastpass
- In-office bike storage
- Licensure exam and AXP support
- Continuing education access
- Mentorship opportunities
- Use of the Bora Beach House
- Hybrid Work Support

To Apply

Please send your letter of interest, resume and work samples to careers@bora.co. In order to counter implicit bias in our recruitment process, we ask that candidates not include headshots in their application.
