

BORA

Senior Project Architect

Bora Architecture & Interiors is seeking an energetic, self-motivated project leader who shares our values of positive social impact, sustainable innovation and forward-thinking design to join our growing practice in Portland.

The ideal candidate has experience leading medium to large project teams throughout the design and development of architectural documents for institutional and/or civic clients, with K-12 experience a plus. We seek individuals with a passion for design excellence, an ability to mentor and lead project teams, and a commitment to contribute to our creative and equitable firm culture.

Qualifications

- Accredited degree in architecture
- 15+ years professional architectural experience, with completed projects in the Project Architecture role
- Self-motivated with strong organizational and time management skills
- Demonstrated experience with Revit
- Excellent visual, verbal and written communication skills
- High level of proficiency with specifications, building codes, technical building assemblies, and best practices to achieve high-performance, sustainable design
- Professional licensure a plus

Roles and Responsibilities

- Provide overall team leadership to advance the development of architectural design documents, construction documents and specifications
- Develop and lead a collaborative process with project leadership team to create a positive and inclusive team culture while meeting project design and performance goals
- Mentor junior staff to support their professional growth through coaching, reviewing work and offering feedback, and strengthening inter-team communications; assign team roles and responsibilities as needed
- Coordinate the work of consultants and outside partners to meet project goals
